

# WHY Choose Excel Hydraulics?

At Excel Hydraulics LLC, we build strong customer relationships by creatively solving problems the right way... on time, any time, any where!

Our expert technicians troubleshoot and quickly repair hydraulic system breakdowns with our innovative equipment... at our facility or at your location.

Knowing that downtime negatively impacts our customers' productivity, our knowledgeable staff design custom solutions using highly specialized, purpose-built equipment to solve problems... the right way, the first time, and by often exceeding industry standards.

*"At Excel Hydraulics, we know that time is money, so we excell at getting your equipment back up and running... quickly, correctly and conveniently.*

*We specialize in large, complex and custom hydraulic service and repair needs, offering multiple ways to solve your problems. No job is too big or too small. With over 26 years of industry experience in fluid power, we provide you with the highest quality service you deserve. Call us today!" Bob Chew, Owner*

# WHAT WE DO & HOW WE DO IT?

From fittings through cylinder design to system analysis and repair, the Excel Hydraulics team combines knowledge, hard work and resources to meet your specific hydraulic repair needs.

## Excel's Cylinder & Repair Division

With skills and facilities to design, build and repair your equipment fast, we focus on getting you back to work.

## Excel's Hose & Fitting Department

We offer an extensive selection of hose, fittings, filters, valves and accessories for a wide variety of applications.

## Excel Hydraulics Field Service & 24-Hr Emergency Services

We provide you with peace of mind by responding quickly and providing reliable services to keep your systems running well.

## Excel's Material Handling And Wallboard Truck Repair

We are experts in Fassi boom truck repair and can service all of your lifting and material handling equipment.

## Cylinder & Repair Division

Our expert mechanics and technicians evaluate each job, give our professional recommendation and let you decide what option best suits your hydraulic and pneumatic cylinder and equipment repair needs.

Through our in-house machine shop and with our custom-machine manufactured components, we provide you with a level of confidence you won't find at other cylinder repair shops. Our line boring capabilities enable us to rebuild your equipment at a fraction of replacement costs and time. Our in-house service capabilities include:

- Cylinder benches for quick teardown and assembly
- Tube and rod fabrication and components
- High torque and detorque applications
- Pressure testing to 10,000 psi
- Complete cylinder design and fabrication
- Standard and custom cylinder fabrication
- Honing bench

## Material Handling

Our fully stocked Truck Shop includes a myriad of boom trucks, cranes and forklifts. We specialize in material handling cranes, with certified crane inspection available upon request. We have certified Fassi crane repair specialists, welders and hydraulics technicians ready to solve your crane problems.

## Field Services

Our commitment to providing expert and timely field services and onsite repairs sets us apart from our competitors and has many of our customers calling us friends. Our field services include:

- 24-hour system service and repairs
- Tubing fabrication and piping installation
- Troubleshooting and evaluations
- Fluid filtration
- System flushing and fluid analysis
- Filtration and dehydrator equipment rentals
- Custom hoses fabricated onsite
- Monthly, quarterly and yearly system preventive maintenance

## Hose, Fittings and Comps

We offer a complete line of hose and fluid connectors. Whatever you need to connect your fluid system, we make it happen. Our product line includes:

- Hydraulic hose fittings and adapters
- Quick connect couplings
- DOT airline and fittings
- Pumps, motors and valves
- Filtration products
- Authorized Parker product center
- Sources for most major brands

# WHO WE SERVICE?

## Our Everyday Customer

Many of our neighbors trust us as their local and regional provider of hydraulic services. No need is too big or too small, so call us to solve your repair needs.

## Steel Mills, Manufacturing and Industrial

We address operational issues and keep your machines running smoothly, minimizing downtime, and getting you back to work.

## Material Handling

With extensive material handling experience we service everything from forklifts to cranes and boom trucks. We handle the simplest to most complex repairs with ease.

## Construction

You're bound to run into issues with your machinery on large scale projects. That's when you call us! With a full inventory of parts, we'll get you up and running quickly.

## Ship Repairs

We've taking our hydraulic repair expertise to the next level with our ship and Coast Guard vessel repairs. From a simple evaluation to a full system overhaul, we get the job done on spec, on time and at cost.

## Farming and Agriculture

From simple farm instruments to earth moving machinery, we apply our knowledge and expertise to maintain and improve your farm equipment's performance.
